National Nutrition Month: Savor The Flavor of Eating Right

March is National Nutrition Month. It's a time to remind us that how, when, why and where we eat is just as important as what we eat. With our busy lives, people tend to eat out of habit and rarely savor the experience of the food being consumed. Making sure to enjoy the sight, sounds, memories and interactions associated with eating are essential to developing an overall healthy eating plan. This is so important for children as they are growing and creating the foundation for a future of healthy eating. We should be encouraging them to sit down to a healthy breakfast, whether at home or in school.

Taking time to sit down together for meals at home may be tough, but it's critically important for creating these lasting food experiences where we are teaching children to pause for a moment and truly enjoy their food. Impulsive eating that leads to over consumption of empty calories is not the path towards a healthy future and can lead to unwanted weight gain. Take time to share food traditions with children and find creative, healthful and nutritious ways to add flavor to food. An eating pattern based on the 2015-2020 Dietary Guidelines for Americans and MyPlate recommendations can help you plan healthy meals for your family. Check out these resources at www.choosemyplate.gov.

Sodexo is committed to promoting healthier food choices and encourages students and families to use the USDA MyPlate to build healthy and balanced meals.
