DEVELOPMENT AND ADOPTION OF BOARD POLICY

Formal adoption of the new policies and/or revision or repeal of existing policies are solely the responsibility of the Board of Education and will occur only after the proposed policy has been out for public comment for a minimum of two regularly-scheduled Board meetings. Proposals for policies will be initiated in writing by the Superintendent. The Policy will then go to the Policy Committee for review. The Board especially encourages employees to engage in activities to influence the development of policies.
