EMERGENCY PREPAREDNESS PLAN

POLICY STATEMENT

- I. Our prime concern is the protection of the life and safety of building occupants in a utility system related emergency or crisis. Protection of property is a second priority. The following emergency plans and procedures have been established to be used in the event of a serious utility related occurrence. Administrators are responsible for assuring that school/building occupants are familiar with evacuation procedures, notification procedures, and shutdown procedures for any utility system related emergency.

- II. Each school/building is provided with a copy of the **Emergency Preparedness Plan** that is specific to that school/building. The **Emergency Preparedness Plan** is contained in a color coded binder, kept in the main office, and be readily available to the public.
