REVISED: 11/11/10**

DEVELOPMENT OF ADMINISTRATIVE REGULATIONS

The Board of Education delegates to the Superintendent the function of developing such Administrative Regulations as will be necessary to assure compliance with Board policy and other laws which govern the school system and its operations.

Administrative Regulations will normally be developed cooperatively with the Leadership Team. Other employees will be encouraged to participate in the development of Administrative Regulations.

Administrative Regulations must, in every respect, be consistent with Board policy but do not require Board approval. The Superintendent will present the Administrative Regulations to the Board for their review.
